You can no longer get the harness for your AN/PRC-25 or -77 radio set, but you can get parts to make one.

O-RINGS FOR ALL REASONS

STEP
RIGHT UP!
GET YOUR
O-RINGS!

O-ring kit, NSN 5330-00-966-8657, has many of the O-rings you need to hook up cable connections.

The kit has 382 rings with 30 different sizes that range from 1/8-inch to 1 3/4-inch inside diameter. A sizing gage is included to help you decide which O-ring you need.

None of the O-rings in the kit will fit an FM audio connector, tho. When you need an O-ring for your H-250, H-189 or M-80 accessory, get it with NSN 5330-00-905-6032.
